

Every night while attempting to eat dinner we would get numerous calls from telemarketers. It did not matter if you told them to remove your name from their list - they continued to call. Even with caller id these individuals would be sneaky and block their phone numbers. Since Indiana has adopted the no call list - I get phone calls only from those individual's who have my phone number. No more unwanted phone calls. I fully support the Indiana law and I would hate to see it taken to a lower standard.
